Lawrence "Gold Find" Attracts Would-Be Geologists, Investors

BY GEORGE WOLFFORD
BLAINE — Build a better mousetrap and the world will beat a path to your door. Or announce the possibility of gold in your back yard and it'll bring a similar result.

Less than two weeks ago a revelation was made of the possibility of gold on the Jay Jordan farm on Cam Creek. Since that announcement a steady stream of visitors has come his way, likely more company than he'd known in two previous years.

And still they come. Sunday was a beautiful day for a drive, with spring flowers and shrubs in bloom and a bright sunshine from the sky. Nothing could have been more proper than a spin into Lawrence County, and that's what quite a few people did.

By early afternoon at least nine car-loads had not only stopped at the Jordan farm but made the mile walk up the hollow to the spot where gold samples have been taken.

Jay Jordan has sort of an open-door policy. Anyone who has wanted to see the land has been let in, and many of them carry away at least a stone for their own sample.

The visits have been of three natures: the curious, amateur geologists, and would-be investors.

And they do have some effect on the Jordan family routine, even though the find it-

self has had more bearing than the guests.

"Jay still gets his work done," Mrs. Jordan noted, "but quite often people are here. He's been up the hollow with them twice today (Sunday). They've been here from New York, Tennessee, Ohio, Florida."

"One fellow wanted to know if he could fly in here in a helicopter. I told him to come on Jay said. He expected to see the whirlwind drop in Sunday and though the farm is directly below some regional flyways with plenty of air traffic and sounds of aerial rotors caused him to look skyward often, the same fellow came back in an automobile instead.

"I started to stop fooling with people," Jay shook his head, "and I don't know how long I'll last at it. The samples are free — and you know, those people who took them have all come back."

"Those who come back have changed from geologists to entrepreneurs. They want to show Jay how to process the ore, or to seek a way "in" on the find.

"A Kenova coal firm employee offered a miner's catalog. He said his own tests, heating the rock to 2,000 degrees, showed gold would puddle in the stone.

"Others took a sample somewhere for testing," Mr.

FLOODS FOLLOW 2.24 INCHES OF RAIN IN 14 HRS.

Woman Drowned In Elliott County Recovered Wed.

Heavy and prolonged rain fall here Monday and Tuesday brought all area streams from their channels and blocked highways in some low-lying areas for several hours.

At least one death in the area was attributed indirectly to the flooding. According to the Elliott County Sheriff's Office, Miss Geraldine Jarrells of the Stark Ridge section of Elliott County was drowned late Tuesday after she fell or was swept from a low-water bridge across Sinking Creek. Her body was recovered by searchers Wednesday morning two miles downstream.

Arnold Helton, West Liberty, local weather recorder for the Weather Bureau, said that 2.24 inches of rain were measured at West Liberty between 4 p.m. Monday when the downpour began, and 6 p.m. Tuesday, when the rain stopped.

The 14-hour downpour followed earlier heavy rains which had already brought streams to the tops of their banks.

Helton reported that during the six-day period ending Tuesday, a total of 3.81 inches of rain fell here, which is more than the normal average rainfall for one month.

Total rainfall so far in April, he said measured 6.67 inches, the most rainfall for a one-month period in the last two years.

Helton said Licking River was expected to crest at West Liberty sometime last night. Most major flooding, however, was on tributary streams.

Bridge Damaged

One of three spans of the bridge across Caney Creek leading from KY-191 to the homes of Marvin Franklin, John Bussey and others, was washed out by the flood Tuesday. A drift probably lodged against the west span and knocked the steel girders from the abutments.

WILGUS VEST REJOINS CITY POLICE FORCE

Wilgus "Duke" Vest has rejoined the West Liberty Police Force following the resignation last Friday of Patrolman Estlin Nickell.

Vest, a former police chief here, began his duties Monday.

THIEVES ENTER SCHOOL HERE TUESDAY NITE

The Sheriff's office and West Liberty police are investigating a break-in at West Liberty Elementary School which occurred sometime Tuesday night.

Entry to the school was made by breaking a window in the kitchen.

Several items, including two record players, were taken. School rooms and lockers were rifled and various articles such as notebooks, and other school supplies were taken.

The principal's office was not entered.

Two youths questioned in the case were later released.

MAN KILLS SELF, 'CHERRY BOMB' IS SUICIDE WEAPON

Willard Dean Smith, 27, of Route 2 West Liberty died instantly at 8:30 p.m. Monday after placing a lighted "cherry bomb" firecracker in his mouth.

According to officials, the suicide occurred at the Morgan County Jail where Smith was awaiting transfer to a Lexington hospital.

Born at Wrigley Sept. 22, 1942, the victim was a son of Lonnie and Hannah Kidd Smith of Route 2 West Liberty.

Surviving besides the parents are two sisters, Mrs. Bonnie Fannin of Route 3 Sandy Hook and Mrs. Betty Black of Little Sandy, and one brother, Emory Smith of Route 2 West Liberty.

Funeral will be conducted today at 1 p.m. at the Glen Avenue Church of God by Rev. Otis Sanders. Burial in Smith Cemetery at Route 2 West Liberty under the direction of Potter Funeral Home.

MORGAN NATIVE KILLED IN STORE HOLDUP SUNDAY

Mrs. Jane Ginger, Store Manager, One of Two Killed

A Morgan County native was murdered in a grocery store holdup Sunday at Muldraugh, Ky.

Dead is Mrs. Jane Gambill Ginger, 44, formerly of Silverhill, manager of the store. Also killed was a 17-year-old customer, Ronnie Long. Both were Muldraugh residents.

Apprehended Sunday night and charged with armed robbery and murder was a Ft. Knox soldier, Pfc. Melton McMorris, 21, a Mississippi native. He was placed in the Meade County jail without bond.

Officers said they are looking for two more suspects in the robbery. They said \$166 of the estimated \$175 stolen was recovered from McMorris.

Mrs. Ginger was born Nov. 18, 1926, at Silverhill, a daughter of (Continued on page two)

RAIN, FLOODING DELAY COUNTRY CLUB OPENING

Lynn Nickell, president of the Pleasant Valley Country Club, announced Tuesday that the opening of the club grounds and facilities on Lower Caney Creek — originally scheduled for Saturday, May 2 — has been delayed until Saturday, May 9.

Extremely wet weather conditions and flooding has prevented workmen from completing necessary work at the country club, Nickell said.

Floodwaters this week brought to a halt all work on a new bridge across Caney from Route 181 to the club grounds. The bridge was scheduled for completion this week.

NEWS ON THREE WELLS IN AREA

Paul Drake of Joliet, Ill., who started drilling deeper in the Nickell No. 2 well near Adele last week, lost the drilling tools when they reached a depth of 2,000 feet, and now is engaged in a fishing job. A second pay was struck near the bottom of the coniferous, it is reported. The well is on Stick Branch about two miles southwest of Caney City.

Drillers are ready to start another well in Elliott County. A Mr. Ferguson of Crockett is drilling contractor to sink a well on the Henry Howard lease three miles from Little Sandy on the Ridge Road. Casing was brought in this week.

Drillers were past the 3,000 feet depth Tuesday in the deep test well being drilled by Monitor Petroleum Corp. of New York on the Cecil lease at Stephens on Little Fork in Elliott County. Slim Rea of London, Ky. is the drilling contractor, using a rotary rig. Monitor plans to go to the granite and estimates the depth at 8,500 feet.

Perkins Forecasts Bigger Fund For Cave Run Recreations Job

A total of 930 children received rubella (German measles) vaccine at immunization clinics throughout the county last Friday. Assisting local Health Department personnel with the clinics were Dr. Joseph W. Skaggs and Dr. Donald B. Thorber of the Communicable Disease Control Division of the State Department of Health. Volunteer helpers included Betty Keller, Paula Hill, Gladys Nickell, Mrs. Donald Thurber, and students who helped at the various schools where clinics were held. In photo above, Dr. Skaggs immunizes little Miss Kirsty Steele of Malone at the clinic held at Carmel City School. Miss Naomi Finch, school nurse with the ESEA Title III project in Morgan County, is at right.

Says Forest Service To Get \$800,000 For Recreation Project

Congressman Carl D. Perkins predicts that the Budget Bureau, after a public hearing in Washington April 15 to hear local leaders from the Cave Run area will increase its 1971 allocation of \$100,000 for starting construction of recreational facilities on the reservoir to \$800,000.

"We asked for \$200,000 — and we will get it," Perkins said this week in his news letter.

The President's budget recommended \$100,000 for Cave Run recreation development by the U. S. Forest Service in the fiscal year starting July 1. And with only this amount expected, the Forest Service proposals call for practically no recreation development on the south side of the reservoir — with hardly any access at all from Bath, Menifee and Morgan counties. Three public meetings had been held since 1967 on this feature of development and the opinion was overwhining in favor of a plan which includes good access roads on all sides of the reservoir, and full development of recreational potential.

Subsequently, the Corps of Engineers and the Forest Service worked out a detailed plan for highway relocations and development. The plan called for access roads on both sides of the reservoir, and for \$22 million worth of recreation facilities to be built by the Forest Service at 13 sites around the lake.

Perkins said the \$100,000 budget requests was evidently inadequate and he accompanied Cave Run area leaders on a Washington mission April 19 to recommend that the amount be increased to \$800,000 for the coming fiscal year.

"The \$800,000 will permit the Forest Service to begin constructing one six-lane boat-launching ramp, three fishing piers, some 2,000 feet of beach, also to install water and sewer lines, to protect natural fish habitat during reservoir cleaning and to design facilities for 11 other recreation sites," Perkins said this week.

"I feel that the Forest Service ought to buckle down and finish the job in the shortest time possible, so that the area can begin to enjoy the growth and development promised since the idea of Cave Run Reservoir was first proposed," he added.

Perkins revealed too that the Zippo area will no longer be treated as a primitive hunting area, but will be fully open to normal reservoir recreation development. The area is shortly upriver from the dam.

Perkins said too he will "make every effort to persuade the Corps of Engineers to increase the pool level to serve the people of West Liberty and Morgan county, and to provide them with appropriate access to the water."

Work of constructing the earth and rock dam across Locking Run was completed a few weeks ago. The Corps of Engineers received \$62,000 for Cave Run project for fiscal 1971, of which \$320,000 is earmarked for road relocations. This will permit a substantial start on the road work component of the project to provide access to boat docks and recreation sites in Bath, Menifee and Morgan.

STATEMENT BY FISCAL COURT

The Morgan County Fiscal Court wishes to express sincere thanks to the people of Morgan County for the good support for the Morgan County Hospital project. We assure you that we will work diligently to build a hospital as soon as possible to serve the needs of this area.

YOUR HEALTH—
TB CAN STRIKE
MANY ORGANS
BESIDES LUNG

Most people think of tuberculosis as a disease that attacks only the lungs. But almost any part of the body may be affected.

Tuberculosis can appear in the intestines, kidneys, rectum or lymph glands. Other targets are the bones and joints, observed most often in children and young adults. TB of the bones and joints was much more common before milk was pasteurized.

Germs can travel—via the blood stream—to the bones, joints, and spine and can grow and spread because of low body resistance. Tuberculosis meningitis—where the delicate coverings of the spinal cord and brain are affected—is extremely dangerous and can result in death or permanent brain damage. On rare occasions tuberculosis can attack the ear, with a possible loss of hearing.

Tuberculosis is still one of the world's great crippling and killers. But it can be cured. Today the widespread use of preventive drug treatment can halt the spread of the disease. In some cases, especially those of the bones and joints, or lymph glands, surgery may be necessary. The drugs make it possible to perform these operations more successfully.

It's wise to get a TB check-up every year. For more information on the tuberculin skin test, chest x-rays and other aspects of this highly communicable disease—consult your local tuberculosis and respiratory disease association.

The University of Kentucky Research Foundation received 398 awards during fiscal 1969, its twenty-third year of service. These awards totalled more than 12 million dollars.

Money Management
Course Offered By
Extension Service

A money management course is available to Morgan County residents who wish to get some pointers on how to stretch their paychecks.

The course, entitled "Keys To Managing Your Family Dollars," will be sponsored by the Cooperative Extension Service. Persons interested in enrolling should contact Miss Mary Ann Foudray at the County Extension Office by calling 743-3292.

Says Miss Foudray, enrollment in the course could mean a savings for the family. "By learning new ways to manage the family finances, dreams, which heretofore have seemed unattainable, could become a reality."

"In order for children to grow up as happy, independent, economically competent adults, they must learn to use money wisely just as they learn to read, write, spell, and figure," Miss Foudray points out.

Instilling economic responsibility in youngsters will be one aspect treated in the money management course.

Appalachian Square
Dancing Featured At
Natural Bridge Park

Appalachian mountain-style square dancing will be a big feature in the recreational program at Natural Bridge State Resort Park throughout the 1970 season.

This type of entertainment is being offered to visitors on Saturday nights from May through November. Starting May 29 and extending through September 4 square dancing will also be conducted on Friday nights. These shindigs also include modern western-style dancing as well as waltzes, polkas and other couple dances. The programs begin at 7:45 and end at 10:30 p.m.

Three major special events will be held in conjunction with the square dance program. Included are: the 4th Annual National Mountain-style Square Dance contest on June 13, the second annual Mountain Music Festival on July 4th and the Fifth Annual Western-Style Square Dance Festival on September 4-5. Richard Jett of West Liberty, Kentucky, is director of square dancing at the park.

LOSE 10 LBS. IN
10 DAYS ON GRAPEFRUIT
DIET

HOLLYWOOD, CALIF. (Special) — This is the revolutionary grapefruit diet that everyone is suddenly talking about. Literally thousands upon thousands of copies have been passed from hand to hand in factories, plants and offices throughout the U. S. and Canada.

Word of its success has spread like wildfire. Because this is the diet that really works. We have testimonials in our files reporting on the success of this diet. If you follow it exactly, you should lose 10 pounds in 10 days. There will be no weight loss in the first four days. But you will suddenly drop 5 pounds on the 5th day. Thereafter you will lose one pound a day until the 10th day. Then you will lose 1½ pounds every two days until you get down to your proper weight. Best of all there will be no hunger pangs. Now revised and enlarged, this new diet plan lets you stuff yourself with foods that were formerly "forbidden," such as big steaks trimmed with fat, roast, or fried chicken, rich gravies, mayonnaise, lobster swimming in butter, bacon, sausages and scrambled eggs. You can eat until you are full until you cannot eat any more. And still lose 10 pounds in the first ten days plus 1½ pounds every two days thereafter until your weight is down to normal. The secret behind this new "quick weight loss" diet is simple. Fat does not form fat. And the grapefruit juice in this new diet acts as a catalyst (the "trigger"), to start the fat burning process. You stuff yourself on the permitted food listed in the diet plan, and still lose unsightly fat and excess body fluids. When the fat and bloat are gone you will cease to lose weight and your weight will remain constant. A copy of this new and startlingly successful diet plan can be obtained by sending \$2 to GRAPEFRUIT DIET PUBLISHERS, 1213 Premier Way, Calgary 6, Alberta. Money-back guarantee. If after trying the diet plan you have not lost 7 pounds in the first seven days, and 1½ pounds every two days thereafter simply return the diet plan your \$2 will be refunded promptly and without argument. Tear out this message as a reminder. Decide now to regain the trim, attractive figure of your youth, while enjoying hearty breakfasts, lunches and dinners.

IN MEMORIAM

In memory of our dear mother, Lillie Pieratt, who left us on April 30th, 1969. Mother dear there's within our heart

A sad and empty space
Since we can no longer
Look upon your sweet face.
Time helps but little
It will never heal
The longing to hear your voice
That for two years has been still.

We often think of things
We'd like to say to you
Then we realize
This we can never do.
We remember the last night
With you that we spent,
Then next day
God's Angels were sent.
They took you to Heaven
Away from all pain
There with God
Forever to reign.

Sadly missed by daughters
Katie, Margie, Madeline and
Helen and sons Charles and
Ellis. (pd.)

What we need more than the
new look is a new outlook.

Bleu Cheese Chicken Sauce

Combine 1 cup salad oil, 1 cup lemon juice, ½ cup finely crumbled bleu cheese, 2 tablespoons Worcestershire sauce, 1 teaspoon salt, ¼ teaspoon pepper, and let stand in refrigerator for several hours. Baste chicken or turkey generously.

Sour Cream-n-Mustard Sauce

For Franks
Combine 1 cup sour cream, 2 tablespoons prepared mustard, 1 tablespoon minced onion, 1 teaspoon salt, dash pepper, 1 teaspoon Worcestershire sauce, 1 tablespoon lemon juice, 4 drops Tabasco. Spread on frankfurters — or hamburgers — when you put on bun. Makes 1 cup.

Steak or Burger Roque-Butter

Cream 2 tablespoons butter, 1 3-oz. package Roquefort or Bleu cheese. Stir in ¼ teaspoon Tabasco. Spread over broiled steak or hamburgers. Makes enough for 2 steaks or 8 hamburgers.

Chantilly Potatoes

Peel and cut 4 medium potatoes into thin strips. Place in center of large piece of aluminum foil. Dot with 4 tablespoons butter. Add ½ cup evaporated milk, salt and pepper, chopped parsley, and ½ cup grated sharp cheese. Bring up foil over potatoes and seal all edges together to make a tight package. Place on grate over moderate fire and cook, turning two or three times for 30 to 40 minutes. Makes 4 servings.

The Kentucky Derby

There's a pageantry all its own at a Kentucky Derby. And whether you watch this year's Derby from a box at Churchill Downs or the TV set in your living room, there's a special feature that's certain to catch your eye—the flowers and land-caping which are at their peak during Kentucky's springtime.

Thousands of tulips, from Voorholt, Holland tulip capital of the world, are set in November so they will bloom at Derby time, starting the last week in April. And that's just what they do, thanks to careful planning.

The gardener at the Downs has supervised the planting of hundreds of thousands of annuals for this season alone. Thousands of pink and white periwinkles, red-leaved aquilegia, red and yellow geraniums, ferns and other plantings all come from the greenhouses maintained at the track since 1918. Huge urns spotted about the grounds contain many of the 45,000 pots of flowers.

Yes, indeed, it takes more than a horse race to make a race track. It's a fact that

many persons go to the track for reasons other than just to see the races. They like the racing environment, the fragrance of the flower beds, the mingling with care-free crowds. They revel in the panoramic beauty as they sit in the grandstand, breathing in the fresh spring air; the prancing of the thoroughbreds as they go to their posts on an oval splashed with sunshine. They enjoy the pageantry that is part and parcel of a day at the track.

Damon Runyon once wrote: "This writer has covered all the biggest and most spectacular sports events in the United States for over twenty years. The one that always stands out in my mind as the most picturesque and colorful of them all is the Kentucky Derby."

All the sporting eyes of the world are upon Louisville and the Kentucky Derby this week.

We've seldom picked a winner. So we are talking about the flowers and the pageantry as Kentucky goes to the Derby.

BUSINESS HERE AND HEREABOUTS

SHORT-WEIGHTED RETAIL PACKAGED ITEMS have brought about a \$500 fine against a Louisville supermarket and in-creased 14 per cent to \$697.621,990 compared with \$533,816,000 for the same period last year.

HISTORIC CAVE HILL, near Lexington was purchased at auction for \$117,000 by Winchester merchant and land developer John Maloney. Since then, Maloney, Inc., sold the property for the Commonwealth of Kentucky. Included in the 17-acre tract are a six-bedroom house and a guest house.

ASHLAND OIL INC. set records in operating revenues and earnings during the six months ended March 31, with a 7 per cent increase in earnings over the same period last year. Net income for the six months of fiscal 1970 was \$25,

Board Chairman Rexford S. Blazer and Orrin E. Atkins, president and chief executive officer. Net income for the quarter ended March 31 was \$10,171,000 or 44 cents a share. This compares with \$9,552,000 or 41 cents a share for the like period last year. . . . Ashland's sales for the six-month period increased 14 per cent to \$697,621,990 compared with \$533,816,000 for the same period last year.

MORE MORTGAGE MONEY—Savings and loan associations had a strong net inflow in deposits in early April, against an outflow a year earlier. The trend was termed even more favorable than March's \$554 million net inflow. Mortgage interest rates in March set a record of 8.51%.

BUILDING STARTS DOWN—Contracts for future construction in Kentucky were down 65% in February, according to a report from F. W. Dodge Division of McGraw-Hill. Contracts for February totaled \$47 million, down from \$136 million a year earlier. Nonresidential construction was down 40% and residential construction was down 34%. Non-building contracts were down 91%. Despite more mortgage money, prospective home-owners hesitated to pay the increased interest rates.

040,000 or \$1.08 a share com-

pared with \$23,179,000 or \$1.01 a share for the corresponding period of 1969, according to CONSUMER PRICES RISE—Consumer prices continued to rise at a rapid 6.7% annual rate during March confusing Government economists who have insisted for months that higher interest rates and lower government spending will slow the inflation pace. March's price index rose 0.5% to 132.2% of the 1957-59 average, and was 6.1% above a year earlier. The report said 70% of the month's rise resulted from rises in consumer services, particularly mortgage-interest rates and medical care. PIA increased interest rates from 7.2% to 8.5% in January. Rise in medical costs accounted for 10% of the month's gain, the largest monthly gain since 1966, and was mainly due from higher physician's fees and hospital room rates. Food prices declined in March slightly. Egg prices were down sharply, while fruits and vegetables rose less than usual. Meats continued to rise. Transportation costs fell slightly as prices of both new and used cars fell. It was the first decline in new car prices since September. Gasoline prices fell 1.2% also. Assuming the dollar at 100 cents in the 1957-59 base period, purchasing power of the dollar last month was 74.28 cents. A member of the President's Council of Economic Advisors said "opposition to Nixon's policy is based on doubts that it is working."

HEART DISEASES LEADING CAUSES OF DEATHS IN KY. Heart disease continues to be the leading cause of death in Kentucky, followed by cancer which ranks second, says a report on vital statistics for 1968 released by the State Health Department. Heart disease deaths totaled 12,974 in 1968, or 406 deaths per 100,000 population, a rise over the 1967 rate of 387.7 deaths per 100,000 population. The national rate is 372.9. Cancer claimed 5,036 Kentuckians last year. The state's rate of 157.6 per 100,000 population compares with a national rate of 159.6. Accidental deaths in the state during 1968 totaled 22,12 and was the fourth highest cause of death. Influenza and pneumonia were next highest killers. Deaths from all causes totaled 32,958. It was estimated the state's population increased by 5.4% to a total of 3,195,500.

AUTO SALES in mid-April declined 10.5% from a year earlier, with only American Motors posting a small gain. The showing was in line with forecasts.

STOCKS HIT 6-YEAR LOW—

The New York Stock Market, which has been dropping steadily for several days, dropped more than 12 points Monday to the lowest since President Kennedy's assassination in November of 1963. Brokers attributed the decline to lower corporate earnings the first quarter, increasing unemployment, and the nation's continuing inflation spiral. Since last fall, the market has dropped from 796 to 735 as measured by the Dow-Jones average. Said Mont Gordon, research director for the brokerage firm of Bach & Co., "The market is expressing concern that inflation—the key factor—has not been controlled."

3 NEW MINES ON NEW RAILROAD

INEZ, KY.—Three new mining operations will be located along the 24-mile railroad to be built by N & W Railway into Martin county, according to N & W's board chairman Herman P. Pevler. He said the three new mines will produce up to 24,000 tons of coal a day and create jobs up to 3,000. He identified two of the mining companies as Island Creek Coal Co. and Martin County Coal Corporation, a subsidiary of A. T. Massey Company. A third mining company, which he did not identify, also plans to open a mine on the new rail line. N & W will spend \$22.4 million in building a bridge across Tug Fork of Big Sandy River and constructing a 24-mile rail line up Wolfe Creek and then cross over onto the headwaters of Rockcastle Creek. The new rail line also will require the building of six smaller bridges and a 1700-foot tunnel. Pevler said, The Martin county area to be served by the new rail line has recoverable coal reserves of an estimated 200 million tons, about a 50-year supply, Pevler said.

OBSERVATIONS AND PREDICTIONS

OCCUPATIONAL DEFERMENTS from the draft were ended by a Presidential order. Nixon observed that "very few young men at age 19 are in such critical positions that they cannot be replaced." The order, which won't affect existing occupational deferments, also ended new deferments for farmers and severely restricted fatherhood deferments. In a message to Congress, he asked that deferments for college students be ended, and for authority to abolish the local-quota system of draft calls.

The eventual goal, he said, is a zero draft call. But "the draft cannot be ended all at once," he said, in asking that the present draft law be extended two years.

REGISTERED VOTERS who will be away from their home counties during the May 26 primary are running out of time if they have not yet made application for an absentee ballot. Application for absentee ballots must be made to the county clerk before May 7.

TWO DANGERS TO HEALTH—The Food and Drug Administration last week warned two more dangers to health from commercial products—an electric relaxer called the "Relaxicizer," and certain canned pizza that is contaminated by the deadly bacterium that causes botulism. Some 400,000 of the Relaxicizers have been sold. They are electric exercising machines costing between \$100 and \$400 each. They shock muscles into contraction with electric current. The Relaxicizer is linked with a variety of disorders, including miscarriage, activation and spread of dormant cancers, aggravation of hernias, ulcers, epilepsy and varicose veins.

FDA said pizza made by the Roman Inn Pizza Co. of Eau Claire, Wis., had been found to be contaminated with the deadliest poison known to man—the toxin produced by the bacterium that causes botulism. String beans commonly involved among have been the foodstuffs most of the canned foods in the past and are the most frequent sources of botulism. A few years ago canned tuna fish were found to contain the bacterium. The bacterium is highly resistant to destruction either by heat or chemicals. These spores are encouraged to grow in virtually airless environment that prevails in vacuum-packaged or canned foods. To destroy the spores, they have to be cooked in moist heat at 180 degrees for at least 30 minutes.

Botulism symptoms, which usually develop within 36 hours after eating the contaminated food, include vomiting, constipation, dizziness, weakness, headache, fever, double vision and visual difficulties that result from dilation of the pupils. In its later stages, paralysis may occur, and respiratory paralysis is the usual cause of death due to botulism.

ANOTHER DEMOCRAT POLL GIVES EDGE TO LT. GOV. FORD, SAID

FRANKFORT, Ky. — A self-spoken supporter of Lt. Gov. Wendell Ford says his poll indicates Ford has more support than former Gov. Bert Combs for the Democratic primary race for governor in 1971.

Samuel Horn, 57, a Frankfort pharmacist, said Friday he conducted a nonprofessional poll which shows 55 per cent favoring Ford on this question: "Now that former Governor Combs has decided to retire from the federal court, do you think he should run for governor again or support Lt. Gov. Ford for governor?"

Horn said he received 449 replies from the 1,100 questionnaires he mailed out to local officials. He said he disregarded 62 replies because they didn't answer some of the questions.

Horn also said that 310 persons, or 60 per cent, indicated they thought Ford would be a strong candidate for governor.

Are Potential Rivals

The release of Horn's poll follows by five days the release of a poll by a Combs supporter. That poll showed Combs with a 2-to-1 lead. The two are potential rivals in the Democratic gubernatorial primary which is still more than a year away.

Meanwhile two sources speculated Friday that Combs would announce his candidacy for governor June 6.

State Rep. William Reynolds of Floyd County said he had learned of Combs' intention to announce at that time through a private conversation.

Former Gov. Edward Breathitt said from Nashville that he agreed on the June date. Breathitt said it was unlikely he would seek the office if Combs announced for another term.

Breathitt also said he had no commitment on trying for the lieutenant governor's post and had never discussed the matter with Combs.

Combs has resigned from the U. S. 6th Circuit Court of Appeals at Cincinnati, effective June 5, because of his

Money Management Course To Start

The UK Extension Service will conduct four weekly money management courses in the Kennedy Library in West Liberty, and anyone interested in management skills in family finances may enroll. ON PATIENCE

Patience is bitter, but its fruits are sweet.

LAWRENCE...

(Continued from Page 1)
"Before this (gold) came on," he said, "and we use the Kentucky Form 33 purchase at the printing office. It's a standard form, we didn't draw up anything special. It has good clauses in it, and I believe it does cover everything."

"This is the same form we used in Morgan, Wolfe and Magoffin counties last year to lease 140,000 acres for Shell Oil." The current leasing was done by Mr. Rice and James Trimble.

Mr. Rice said his interests lie in gas and oil rights. "I don't think there's much to this other business."

Whether there's much hasn't been determined, but a lot of people have shown an interest. As far as Jay Jordan is concerned, his case is reminiscent of a Dutch sea captain, Johann Suter, who tried to transplant tropical fruit to California in 1940. When gold was discovered on his land, the trees were transplanted to the ground and Sutter's Mill became synonymous with gold and the 49ers.

It's a bit calmer on Caney Creek. A lot of old acquaintances have come by to wish Jay good luck. Winford Cordle was among those who dropped by Sunday. As he ambled back to the car he paused to turn and say:

"Bee, Jay'll be back next year to help you count your money."

OIL PATCH

By HAROLD EKAS, Geologist
Kylachian Petroleum Surveys
White Oak, Ky., 41474

CANEY CREEK MORGAN CO.

First drilling for oil in 1901 by Haling and Eastern, Ky. Oil Co. on North Flank of Caney anticline. Earliest oil well was 1903 but it was not until 1912 when the Caney City gas well blew in with 700 barrels of oil per day put Morgan County and Kentucky really in the oil spotlight and eyes of the oil world turned to Kentucky.

In 1913 Morgan County was producing oil at the rate of 12,000 barrels per month and during the first World War it went on to 18,000 barrels per month. Production was from the following pays held in the porous strata on the Caney anticline:

Harlin Sand at base of Pineda, Ohioanage Shale, Caprock, Onondaga.

Onondaga, Bial Onondaga and in a recent 1970 well in the Dehartburg, as well as having gas in Big Six Sand, and also a few oil wells in Big Six Sand. Even one well produced from the White Sand above the other pays. There is also gas in the Ohio Shale.

Generally the pays between the Dehartburg and Big Six are not tested. These are Silica, Pebbles, and the Gilly Pay. Last two namely Pebbles and Silica are Lockport, Silurian, Niagara, while the Silica is the upper section of Silurian.

It also might interest some people to know that Caney City (Caney) oil field did produce over 600,000 barrels of oil and is still producing a small amount.

At peak of the oil field there was out of 65 wells drilled: 62 oil wells, 1 gas wells, 2 dry holes.

Cooperation and common sense in human relations make life worth living for everyone.

Children present were Mrs. Juanita Perkins of Charfield, Joe, Ray, and Don Perry of Morehead, and Charles and Howard Perry, Jr. of Reams, Mich. Another daughter, Mrs. Ruby Moore of Folen, Ore., was unable to attend. Mr. and Mrs. Perry resided most of their lives in Morgan County.

UNLISTED NUMBER

According to "Telephone" magazine, unlisted numbers are unlisted numbers. No matter who is calling as far as one operator was concerned, President Nixon was calling Mayor Richard Lugar of Indianapolis, New Year's Day from the Western White House in San Clemente. But the operator thought it was a hoax. After all, the White House is in Washington and refused to let the call through. But when word shuffling around and reaching management in Indiana Bell Telephone Company the call was finally placed.

H. A. Wallace, left, district conservationist with the Soil Conservation Service, received a 15-year safediving certificate Monday from Billy Benson, area conservationist. The Morgan County District office also was presented a 15-year certificate for preventing disabling injuries.

DETERMINING TOBACCO ACREAGE
FOR STRIP OR SKIP ROW PATTERN

Ben Cox, Chairman of Morgan County Agricultural Stabilization and Conservation Committee reminded burley tobacco farmers today special rules apply to measurement of tobacco planted in a strip or skip row pattern. He said if each strip planted to tobacco contains at least four rows and the strips of idle or fallow land or other crop are at least 4 normal rows in width, only the land actually devoted to tobacco will be counted.

Mr. Cox pointed out a normal row is the distance between the rows of the crop planted in the field but not less than 4 links (32 inches). The strips or idle or fallow land or other crop must be at least 5 normal rows in width from row-to-row (plant to plant) in order to be eligible for deductions from the total tobacco acreage.

The chairman cautioned unless both requirements (at least 4 rows tobacco planted, except on one side of field, and the strips at least 4 normal rows in width) are met the entire area will be considered TOBACCO ACREAGE. Any adjustment of excess burley tobacco acreage that results in leaving a skip-row pattern must meet certain requirements in order to be approved. They are:

The rows or strips on which the tobacco is destroyed must meet the minimum 4-row width requirement.

If an adjustment of excess tobacco acreage made in skip-row manner does not meet EOTI requirements described above NO adjustment credit can be approved and the farm will still be considered excess, Mr. Cox explained.
